

Notification of Two Dockets

Amtrak Passenger Train 501 Derailment

December 18, 2017

RRD18MR001

The supporting documents for this accident can be found in two separate dockets. This docket and the *Managing Safety on Passenger Railroads* investigative hearing docket.

The National Transportation Safety Board (NTSB) conducted a two-day investigative hearing for this accident in combination with another Amtrak accident in Cayce, South Carolina. The hearing was held on July 10 and 11, 2018, and was titled *Managing Safety on Passenger Railroads*. By regulation, those documents discussed during the hearing were entered in a separate hearing docket designated as DCA18HR001.

The factual reports from the following groups are in the companion docket:

- Operations and System Safety Group Factual Report- DuPont, WA
- Human Performance Group Factual Report- DuPont, WA
- Locomotive Event Recorder Group Factual Report- DuPont, WA
- Survival Factors / Crashworthiness Group Factual Report- DuPont, WA
- Materials Laboratory-DuPont, WA
- Onboard Image Recorder Group Chairman's Factual Report- DuPont, WA

The following pages are the Table of Contents from the docket for the investigative hearing to aid you in locating other specific documents pertaining to the DuPont accident and are **not** duplicated in this docket.
